

PUMPS

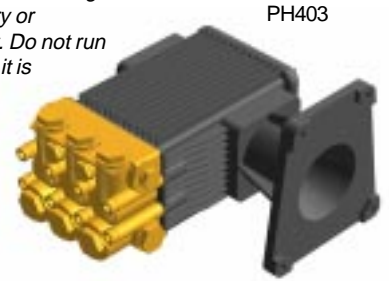

GENERAL PUMPS

- PG201 General Pump T9051EBF 2.1 @ 1500
- PG211 General Pump TT9061EBF 2.1 @ 1500
- PG281 General Pump TT9071EBF 2.8 @ 1500
- PG282 General Pump 2.8 @ 2000 Gas
- PG302 General Pump T991 3 @ 1800
- PG402 General Pump 1011 4 @ 2000
- PG413 General Pump TS2011 4 @ 3500 (Nickle Head)
- PG422 General Pump EZ2542 4.2 @ 2500
- PG452 General Pump, TS1511-B 4 @ 3000
- PG563 General Pump TS2021B 5.6 @ 3000

PH803

Protect pumps from freezing: Do not run pump dry or damage may occur. Do not run a frozen pump until it is completely thawed.

PH403

PG211

Belt driven, low speed pumps (less than 1750 RPM) can draw from a tank if you ensure that the vacuum does not exceed negative 4 psi.

HYDRO TEK PUMPS

- PH215 Hydro Tek Pump 2 @ 1500 w/ Unloader
- PH326 Hydro Tek Pump 2.5 @ 2600 w/ Unloader, Inj. Gas Direct
- PH330 Hydro Tek Pump 3 @ 3000 w/ Unloader Gas Direct
- PH400 Hydro Tek Pump 3.5 @ 3000 Unl. Gas Direct
- PH403 Hydro Tek Pump 4 @ 3200 Gas Direct
- PH405 Hydro Tek Pump 4 @ 4000 Gas Direct
- PH803 Hydro Tek Pump 8 @ 3000 1450RPM Belt Drive

Check oil sight window daily for oil level and oil condition. If oil is "milky" colored, water is penetrating past the pump seal and crank case will fail if not corrected immediately.

GENERAL PUMP PARTS

- PGK01 Valve Kit (6) GP KO1
- PGK02 Oil Seals GP K02
- PGK04 Piston general T991 Pump
- PGK06 Bolt Kit GP K06
- PGK08 Packings 20mm GP K08
- PGK09 Seal Kit GP K109
- PGK12 Packing Kit GP K127-General
- PGK21 Ceramic Plunger For TS2021
- PGK22 Oil Seal Kit EZ3040 GP K23
- PGK23 Valve Kit EZ3040 GP K123
- PGK27 Packing Kit GP K27
- PGK28 Packing Kit GP K28
- PGK29 Packing Kit GP K29
- PGK30 Packing Kit Complete EZ3040 GP K130
- PGK40 Piston For EZ3040 GP
- PGK44 Piston GP EZ2542
- PGK51 Piston GP 15mm
- PGK56 Piston GP 16mm
- PGK83 Oil Seal Kit GP K83
- PGK87 Seal Kit GP K87
- PGK88 Packing Kit GP K88
- PGK89 Intermediate Ring GP K89
- PGK90 Retainer Kit (Kit 90) GP K90
- PGK91 Anti-Extrusion Ring-General Pump
- PGK96 Packing Kit (3 Req'd) GP K96
- PGK97 Packing Kit (1 Per Pump) GP K97
- PGL00 Hi Temp Seal Kit GP K100
- PGL16 Pump Oil General 16oz.
- PGM20 Pump Manifold General TS2021
- PGP01 General Oil Sight Gauge
- PGP05 General Oil Cap

PH405

PGL16

Direct drive pumps that run at high speed (3400 RPM), should be pressure fed with adequate water supply.

HYDRO TEK PUMP PARTS

- PHK05 Cup Spreader Hypro Pump
- PHK10 Oil Seal Kit PH400, PH403, PH405
- PHK13 Ceramic Plunger PH326
- PHK15 Ceramic Plunger, PH400, PH403, PH405
- PHK16 Ceramic Plunger 18mm Hydro
- PHK17 Plunger For Hypro 2251-2255
- PHK20 Valve Kit PH400, PH403, PH405
- PHK30 Packing Kit PH400, PH403, PH405
- PHK31 Packing Kit For Hypro 2251-2255
- PHK34 Valve Kit / PH322 / PH326
- PHK35 Support Ring Kit PH405 Pump
- PHK36 Packing Kit PH326 / PH322 Pump
- PHK47 O-Ring HT PH403 Pump
- PHK49 Plunger O-Ring PH326
- PHK60 Piston Kit (3) For PH803
- PHK62 Packing Kit For PH803
- PHK64 Valve Kit For PH803
- PHK71 Packing Kit Hypro 2331 B-C

Hydro Man Tip:

To increase pump life, prevent cavitation (air bubbles), overheating, and dirty water. Cavitation can be prevented by keeping filters clean and checking for air in pump feed lines. Overheating can occur in 5 minutes if left in bypass without spraying water out of the gun.
